Welcome

It's time for a major overhaul of the info in the wiki. Much of it is outdated, irrelelvant, sketchy and sometimes hard to find. I'm not talking about just patching it up as is done from time to time - I'm talking major action.

I call on all midiboxers to get involved and lend a hand - you know it will make you feel all warm and fuzzy inside .

Once this layout is complete - the next step will be to create the pages in their correct namespaces and then begin moving data around, modifing / compiling information and writing up the missing pieces.

This is where it starts - an overview of the data and structure, I encourage you to put forward your ideas and change things around - discussion is here .

This is gonna be triky in a wiki, but here goes
