Open Source Hardware

Other cool open source projects from around the net.

- theutis.com - Open-Source MP3 player to listen to your MidiBox music on.
- Yampp - yet another Open-Source MP3 player.(this one has USB capabilities)
- Arduino - An open-source physical computing platform very cool programmable I/O board.
- Ronja - Ronja is a free technology project for reliable optical data links with a current range of 1.4km and a communication speed of 10Mbps full duplex.
- Fab@home.org - prototyping tool!!! (this is just cool)

Circuits

Circuit designs that can be incorporated into projects.

- RIAA Compensated Stereo Preamp - A turntable preamp board and circuit design. usefull if you want to make a Traktor mixer/Controler with an optional turntable input.
