This is the official list of MB-6582 builders, with serial numbers.

The list vaguely relates to the order in which people requested PCBs and how quickly they paid. People who bought only a base PCB and are building their own control surface are not on this list, because they are not building an MB-6582 and therefore their MIDIbox SID V2 will be unique.

This list started as the list of builders of the original bulk order of PCBs, when someone wanted a serial number like the x0xb0x. Since then, people who buy PCBs from SmashTV can add themselves if they want. It's entirely optional and superficial (but official because once you're on this list, you can't change your number and others can't take it).

Any usage of this list to spam other users with offers to buy their PCBs or pay for construction will not be tolerated.

A serial number sticker can be printed off this photoshop design here ~~dead link~~ here.
