2025/11/04 00:57 1/1 Introduction

## Introduction

A long time lurker of midibox.org. Started my first (and so far only) midibox project in the winter of 2006. The prototype was completed 3 months later, but it sat untouched for a very long time.

In the summer of 2009, I was determined to complete the Chaos Matrix and began completing its construction.

## **Projects**

## **Chaos Matrix**

The Chaos Matrix is a control surface and programmer for an Oberheim Matrix 1000 synthesizer. It uses MIOS v1.9c on a PIC18F452 microprocessor along with a custom application built with the C skeleton interface. http://farm1.static.flickr.com/110/304313172 54ad33d062 m.jpg
