## Button LED Matrix (BLM16x16+X) Control Surface

## uCapps.de Overview MIDIbox BLM Forum

<br/>

There are many BLM options available. You can build a hardware BLM - some users have designed PCBs, others have used veroboard. Ilmenator has created a 16x4 hardware BLM. A Lemur application is available that provides a virtual BLM on an iPad. BLM emulation software is available for Linux, Windows, and Mac computers. The Lemur app and the emulator software can be downloaded on this page.</bd>

- BLM 16x16+X Build Guide based on Latigid On's design
- **Novation Launchpad BLM** Since firmware version 87, the SEQ V4 supports the use of two Novation Launchpads as a BLM control surface. Two Launchpads form a 16×8+X BLM, and up to four can be connected to make a full 16×16+X control surface. Setup instructions.
- Using the BLM Some info on the features of the MIDIbox SEQ BLM and how it can be used.
