|                               |     | \$7 ish |

There is an option to do a Split Buy from Jaycar and Rockby. the optocoupler is cheaper at Jaycar, and also Rockby's midi ports are not suitable for Surface mounting, and are cheaper at Jaycar. (levon)

http://wiki.midibox.org/ Printed on 2025/07/31 10:44

<sup>^</sup> need to buy 25+ to get discount

Is there a reason the rockby midi ports are not suitable? they look pretty standard to me... (durisian)

I sware someone changed the image on the rockby site, when i checked a while ago it wasn't a surface mounting port, what im confused is the plug says its 180deg.. not 90deg like the image (levon) still , the optocouplers at jaycar are alot cheaper.. \$13 for a 10 pack at jaycar... \$19 for 10 at rockby. we would save around 50c per midi port. seeing as we are buying 219 optocouplers and 438 midi ports... thats about \$250 difference.

We are now looking at 100+ for almost all items

I have been doing some calculations in spreadsheets, looks like we will get the following prices:

|                | base kit | extra port |
|----------------|----------|------------|
| Jaycar         | 10.01 *  | 5.07       |
| Rockby         | 10.87    | 6.5        |
| Split purchase | 9.84     | 4.48       |

<sup>\*</sup>excluding crystal
