# The MBHP_4066 Board

For MIDIfying old analog Sound gear You'll need bilateral switches in some cases.

In my case I needed more than 100 of them!

For that reason (and with the engaged support of **nILS** and **PCB Mike**) the **MBHP_4066** board was created.

One MBHP_4066 board provides 16 bilateral switches.

For more Information have a look at the pdf file below.

The MBHP_4066 Board (assembled)

The MBHP_4066 Board (PCB, Eagle)

Overview and Details:

- **MBHP_4066** with remarks and a Partlist =⇒
