

A very simple but very convenient device for midiboxers who use Ableton live : the squared keyboard. Some extra features planned like Midi Channel selection or switch between CC or Note for the behaviour of the buttons.

What does it look like ?

<http://www.midibox.org/forum/index.php?topic=9555.msg68782#msg68782>

PCB published when I will find how to include files to download in the wiki without external webserver !!! I you need it quickly, contact me julien.voirin@free.fr

Guess what ? It is finished ! and it works ! look at :
