Hello, I'm gslug (or Kevin). I only recently stumbled accross MIDIbox and am now in the process of collecting parts for an MB6582. Whilst waiting for the last parts to arrive I am attempting to get to grips with Eagle and lay out a PCB for a C64 replacement PSU.

My next build will probably be a Midibox CV as I have become rather addicted to collecting vintage analog gear.

More to follow once I start building things.
