

# LRE8x2 096 SSD1306-BAR for Eurorack

Eurorackpanel;  
 LRE-OLED-BAR & LRE8x2 V2.5 This Design is planned for SMD-LEDs - and Screens, - it only will work for transparent Plates - else it must be adaptet (mor drill holes) designed by Michael Sigl > www.siglut.at

## 4x PCBs on one 100x100mm

there is no V-Groove, you have to cut it on the marking groove it on top and back, with a new sharp cutter, do it several times, then break it

With this Method you pay for 20 PCBs 8€ all inclusive to EU-Austria

So you can Stuff 5 LRE8x2 with this.

Here are the gerberfiles for production - testet on JLCPCB

[lre-oled-reva-gerber.zip](#)

# Building and BOM

The Values are printet on the PCB.

## Following Quantity is for 4 PCBs:

8x 1Row 7Pin headers (2.54mm pitch)

8x 1K 1208 SMD Resistors

12x 10uF 1208 Capacitors (non polarized)

3x 10K 0603 SMD Resistors which are optional

8x 0.96" SSD1306 Screens

## Frontpanel

I made a DXF File which you can send to Formulator, i panalized it so there are 2 Plates in it  
I payed 40€ summed for booth plates incl shipping from Germany to Austria
