

Sensors

Introduction

Here you'll find plenty of informations about various sensor-types and how to connect them to a midibox. If you're interested in working with sensors, you might also want to check out the [ACSensorizer-Midibox](#) project. The above picture is a DIY

Sensor-Wiki maintains a free list of possible sensors you could experiment with :

<http://www.sensorwiki.org/doku.php/sensors/introduction>

For example the picture above is a EEG-Electrode from the OpenEEG Project. A midibox mind controlled ? who said that ?
